

***J R Glass of Fitchburg - Helping as many businesses
get back to business as possible!***

J R is providing Safety Shields, partitions, and reception sliders to help businesses remain in operation while feeling safer.

Guards are custom made to each specific location, type of business, countertop type, and need. Projects typically take a few days from date of measurement. There is no charge for measuring and designing.

Products are manufactured with Polycarbonate, which is unbreakable, and far more scratch resistant and longer lasting than Acrylic "Plexiglass", and comparable in cost.
