Many local businesses have had to shut down or reduce their activities as a result of the COVID-19 outbreak. Meanwhile, our nonprofit partners are scrambling to find the food, toiletries, and personal protective supplies they need to meet the rapidly increasing demand.

Needed are:

-
- food, fiber, and soap products
 - gloves, masks, hand sanitizer, and other personal protective equipment
 - food packaging materials

If your business has any of these items which you are looking to sell or donate OR that you are already selling at your retail location and would like us to promote for you, please contact CHNA 9 using the email or phone number above, or complete this form provided by Growing Places: <https://forms.gle/6GC7Fv7uvkjivF8s6>. If you can offer your resources for cold storage, meal prep, distribution/delivery, etc., please let us know that as well. Together, our community will rise to this unprecedented challenge.
